

# Roy Orbison, I'll Never Tell

Kiss me and I'll never tell a soul you did  
For they'd only tell us we were only kids  
Take my hand and lead me over hill and dale  
Love me oh my darling and I'll never tell

How it matters if you will or won't  
But I would never tell if you do or don't  
Darling trust me just a little, how I pray you will

Don't be basful, kiss me, and I'll never tell

How it matters if you will or won't  
But I would never tell if you do or don't  
Darling trust me just a little, how I pray you will  
Love me oh my darling and I'll never tell
