

# Royal Crown Revue, Morning Light

Morning light shine in my window  
Morning light tell me to leave you  
Morning light and I wonder just  
How can I wander alone in this world without you

All day I work with pick in hand  
Until the sun go down,  
All day I think of you, my girl,  
And my poor heart spins 'round

Sun go up, the moon come down  
The whole world spinnin' 'round  
Before that stops and heaven drops  
My love still keeps us bound

Rooster crows at break of day  
And when the sun go down  
Were I that rooster lovin' you  
I'd make a sweeter sound
