

# Royal Hunt, Can't Let Go

Kind of faraway country, million miles from our homes  
Have no reason to be here - now, see how it goes  
Sharing "wisdom and progress", but we're armed to the teeth  
escalating this madness - tell me, why can't we leave?

'Coz we can't let go - no, we can't let go  
can't let go - we just can't let go - ever

Every inch of their country we're proclaiming as free  
'til the last of the natives have no places to be  
Educating with fire, liberating with steel  
pushing repatriation - do we care how they feel?

'Coz we can't let go - no, we can't let go  
can't let go - we just can't let go  
We're taking over 'coz we  
can't let go - and never ever will  
Can't let go - it's just the way we're build  
The only thing we know - until the final toll -  
we'll never ever let go
