## Royal Hunt, Can't Let Go

Kind of faraway country, million miles from our homes Have no reason to be here - now, see how it goes Sharing " wisdom and progress ", but we're armed to the teeth escalating this madness - tell me, why can't we leave?

'Coz we can't let go - no, we can't let go can't let go - we just can't let go - ever

Every inch of their country we're proclaiming as free 'til the last of the natives have no places to be Educating with fire, liberating with steel pushing repatriation - do we care how they feel?

'Coz we can't let go - no, we can't let go can't let go - we just can't let go We're taking over 'coz we can't let go - and never ever will Can't let go - it;s just the way we're build The only thing we know - until the final toll - we'll never ever let go
