

Ruben Studdard, I Need An Angel

I've run out of answers
I've run out of time
I'm so confused that I'm losing my mind
It's gonna take a miracle to help me this time
I'm traveling a road that has not one sign

Help me, have mercy for me
Set my soul free
And let the bell in my heart ring, oh
This my cry, hey, this is my plead you see

I need an angel, I'm callin' an angel
Send me an angel down, ohh

I need an angel, callin' an angel
Send me an angel down

I'm carrying a load that's too heavy for me
I've nowhere to go so I'm down on my knees
I'm tryin to see the forest, but there's this one tree
I can't understand why I'm sinking so deep

Help me, have mercy
Won't you have mercy
Set my soul free
And let the bell in my heart ring
Oooohh, this my cry mmm, this is my plead

I need an angel, I'm callin' an angel
Send me an angel down
(Send it all down)

I need an angel, callin' an angel
Send me an angel down
(Send it all down)

Oh something inside of me, tellin me the morning will come (morning will come), yes it will
sometimes it's hard to face the truth so we run (we run)
God if you care at all please don't let me fall by the wayside, oh no
Please be my guide , would you light my path (light my path)

Take me, shape me, mold me , change me, teach me, fill me, save me

I need an angel, I'm callin' an angel
Send me an angel down
(Send it all down)
(Repeat)
