

# Rubyhorse, Live Through This

When it all comes down around us  
You are nowhere to be seen  
But I'm just happy you could make it  
Cause it's my favourite time of year  
And maybe this time around  
Your going to hang on and stick it out  
Do you think they'll remember just who we are?  
And if I don't wake up in heaven  
And just stumble 'round this lonely place  
If you stay until tomorrow  
I won't be bitter either way  
I feel no mercy from the heavens  
And my heart is worn away  
I've lost my voice now, it doesn't matter  
No-ones listening anyway  
But next time they come around  
And drag their circus back into town  
We'll free all, wel free all the animals  
And if I don't wake up in heaven  
And just stumble 'round this lonely place  
If you stay until tomorrow  
I won't be bitter either way
