

Rufus, Masterjam

I got a ... going down
It's a party invitation we're putting down
So come on ya'll give it a chance
Get up and dance
Got to groove, get your body loose
And join the band
Help spread the word about the masterjam
It's a soulful revolution that can't be beat
We'll rerun the constitution and heat your feet
So come on ya'll give it a chance
Get up and dance
Got to groove, get your body loose
And join the band
Help spread the word about the masterjam

We got to wake up the world

And change it all tonight
Gonna spend it around and wake it up with part lights
So forget about your troubles and live the ...
And rock the country and don't look back

So come on ya'll give it a chance...
(We could rule the world with the Masterjam repeat)

Come on take my hand, join the band
Got to tell the world about the masterjam
Got to tell the world, got to tell the world
Got to tell the world, got to tell the world

(Repeat over and over)
