

# Rus, The Same Star

Baby if you look up  
Whenever you're down  
I will hear you calling out  
Before you make a sound  
We can climb this mountainside  
We can cross the sea  
'Cause all I am is you  
And all you are is me  
Wherever you are  
I am with you  
'Cause we wish on the same star  
'Cause I can feel you  
If you are near or far  
'Cause we wish on the same star  
I would give my hand but  
You would need my heart  
I could give it to you  
Before we fell apart  
I would give my all you'd see  
But only if I knew  
That all you are is me  
And all I am is you  
Wherever you are  
I am with you  
'Cause we wish on the same star  
'Cause I can feel you  
If you are near or far  
'Cause we wish on the same star  
On the same star...  
Hey! Hey!  
Sometimes a caged bird sings  
When a free bird flies away  
In the waterfall of stars  
You're calling out my name  
We can climb this mountainside  
We can cross the sea  
'Cause all I am is you  
And all you are is me  
Hey! Hey!
