

Russell Watson, Someone Like You (Feat Faye T

Il tempo passa senza che
Lo passo mai insieme ate
Ma ti pensavo sempre
Nei sogni tu con me
Per me il mondo finira
Se non ci fossi tu
Ovunque vai
Voglio che sai

If you need a friend or a lover
Or a place that you can hide
I will always be there
Even though my hands are tied
I know deep down inside
If you'd consider what we shared
Maybe you'll see
You're all that I need

E'una vita che cercando a te
E non importa che io sento per te
Soltanto una notte ancor
Chiamami amor
All my life
I've been searching
For someone like you

There's never been a better time
There's never been a better place
For you and I together here
Alone and face to face
Oh I'd do anything
If you'd just let me in your life
Whatever it takes
I won't make the same mistake again

E'una vita che cercando a te
E non importa che io sento per te
Soltanto una notte ancor
Chiamami amor
All my life
I've been searching
For someone like you

Could it be (could it be)
The brightest star (The brightest star)
So close yet still far away (Let's get it on slowly)
Don't you know I've fallen for you
Baby I'm calling for you
Right here right now

E'una vita che cercando a te
E non importa che io sento per te
Soltanto una notte ancor
Chiamami amor
All my life
I've been searching
For someone like you
