

Ruxandra Bar, My Heart Is Bleeding

I'm crying over you left me waiting in the rain
I know its over I'll never be the same again

I'm crying over you left me waiting in the rain
I know its over
I'll never be the same again

You threw a favor, just turned around and on your way
I'm sure its over my heart bleeding out in pain

Lost in time waiting here like the closets in my dream
cant escape want to fly away from here

I'm crying over you left me waiting in the rain
I know its over i'll never be the same again

You threw a favor, just turned around and on your way
I'm sure its over my heart is bleeding out in pain

his break up shines his heart in me release me now or set me free
from all the tears i have cried every night over you

I'm crying over you left me waiting in the rain
I know its over I'll never be the same again

I'm crying over you left me waiting in the rain
I know its over I'll never be the same again

You threw a favor, just turned around and on your way
I'm sure its over my heart bleeding out in pain
