

Rx Bandits, Walk Away

Everyday i search for something soulful
I hope your doing the same cause
You know its true, its how i play
I never run, i never hide
Never laid down, lost my pride
That's what i said when she walked away
Walk away you walk away
That's how you solve all of your problems
You can fuck with me but not today
Cause i would rather try and solve them
Walk away
No more sorrow, not tomorrow
Only happiness today
You can hear when we play
