

Rx Bandits, What If

What if I told you
that you're a lovely gal
and i'd adore you
if you'd just show me how- right now
what if i told you
things that i have inside
shoulder to cry on
someone that i confide- right now

CHORUS

i can't see
the life thats left in front of me
so drop me off
i can't do
the things that i was meant to
just drop me in

what if i told you
that you're a stupid whore
and i want nothing
your life is such a bore to me
what if i told you
i speak with honesty
you said yourself, girl
best things in life are free
right now, right away

CHORUS

never better, never worse
never better, never worse
never better, never worse
never better, never worse
