

# Ryan Adams, Gonna Make You Love Me

Riot on the streets, the touch beneath the sheets  
It's only gonna make me love you more  
The cops they got the guns, the night destroys the sun  
It's only gonna make me love you more

This old world, well, it was mine to take  
Faith can keep you warm, but I'll teach you how to shake  
And I'll come to you like a little girl  
It's only gonna make me love you more

Moonlight on the beach, sweet amphetamines  
It's only gonna make you love me more  
Bottles and the cans, the idiots go dance  
It's only gonna make me love you more

This old world, well, it was mine to take  
Faith can keep you warm, but I'll teach you how to shake  
And I'll come to you like a little girl  
It's only gonna make me love you more

They say love is hell,  
But I've only been laughin' ever since I fell  
It's only gonna make me love you more  
The lord will have his way but I'm just a call away  
It's only gonna make you love me more

This old world, well, it was mine to take  
Faith can keep you warm, but I'll teach you how to shake  
And I'll come to you like a little girl  
It's only gonna make me love you more
