

Ryan Huston, All Alone

Is anybody out there calling askin for me?
Is anybody somewhere wonderin' what's come of me?
Is any mail today that I couldn't find?
And am I in the thoughts or prayers in somebody's mind?
And everybody's wonderin wonderin wonderin whatcha gonna gonna do with your life
And everybody's askin askin questions but I couldn't answer to save my life.

Call me uptight cuz I never relate but its alright
Cuz I'm finding my way till the day comes when I finally know what to do
Call me uptight cuz I never related but its alright
Cuz I'm finding my way till the day comes when I finally know what to do

Is anybody out there thinking of me this time
Does anybody still care whether or not I am fine
I know the times are changin' I don't wanna be all alone
Will someone ever care enough to pick up a phone
And everybody's wonderin wonderin wonderin whatcha gonna gonna do with your life
And everybody's askin askin questions but I couldn't answer to save my life.

Call me uptight cuz I never relate but its alright
Cuz I'm finding my way till the day comes when I finally know what to do
Call me uptight cuz I never related but its alright
Cuz I'm finding my way till the day comes when I finally know what to do

Call me uptight cuz I never relate but its alright
Cuz I'm finding my way till the day comes when I finally know what to do
Call me uptight cuz I never related but its alright
Cuz I'm finding my way till the day comes when I finally know what to do
