

Ryan Malcolm, Good Girls

Her name was Sheila, she was a dreamer,
You know we never seen eye to eye
Then there was Mona, just 'round the corner
She was a never happy with a sigh

You're just not right for me baby,
You're just not right for me lady

And what about Suzy who loved the jacuzzi?
That's where I caught her with the other guy
Little Lolita, she was a diva,
She love the money tried to make me try

[Chorus:]
You're just not right for me baby,
You're just not right for me lady
Now why you gotta go and do that?
Where have all the good girls gone?
Where have all the good girls gone?
Can you help me now?
Where have all the good girls, all the good girls?
Where have all the good girls gone?
She's out there somewhere
I know you're out there baby

Has anyone seen her, I'm dying to meet her,
She better come soon 'cause I'm going down
Am I going crazy? My vision is hazy
Or has my world started spinnin' 'round

[Chorus]
