

Ryan Malcolm, Straight Up The Middle

I've been knocked down, I'll get myself together
face to the ground, I know its now or never
this will be the last time

I'm coming atcha straight up the middle, nothing can pull me down
I'm going to drive it straight up the middle, nothing can stop me now
I'm going to drive it straight up the middle, no one will ever bring me down

I fall back down, can't pull myself together
when I come around, you're in for nasty weather
this will be the last time

I'm coming atcha straight up the middle, nothing can pull me down
I'm going to drive it straight up the middle, nothing can stop me now
I'm going to drive it straight up the middle, no one will ever bring me down

push me around, you should know better
face to the ground, it's now or never

I'm coming atcha straight up the middle, nothing can pull me down
I'm going to drive it straight up the middle, nothing can stop me now
I'm coming atcha straight up the middle, nothing can pull me down
I'm going to drive it straight up the middle, nothing can stop me now
I'm coming atcha straight up the middle, nothing can pull me down
I'm going to drive it straight up the middle, nothing can stop me now
I'm going to drive it straight up the middle, no one will ever bring me down
