

Ryan Shupe & The RubberBand, Don't Leave Me

Can't you see I've been looking
For a girl just like you
And I've been saving up all of my kisses
For someone to give them to
And you know I've been waiting
For a girl so fine
I would give you all my affection
Yeah, I want to make you all mine
And I hope you feel the same way I do
Nothing can change the way I feel about you
Please don't leave me

Lonely, lonely, lonely, lonely
Don't leave me lonely, lonely, lonely, lonely

Every day I've been dreaming
We could fly away
We could leave all our troubles behind us
Laughing and walking hand in hand all day
And I hope you feel the same way I do
Nothing can change the way I feel about you
Please don't leave me

Lonely, lonely, lonely, lonely
Don't leave me lonely, lonely, lonely, lonely

Don't leave me sad and lonely
Don't leave me feeling blue
Don't leave me wondering what life would be without you
Please don't leave me

Lonely, lonely, lonely, lonely
Don't leave me lonely, lonely, lonely, lonely
