

Ryan Shupe & The RubberBand, If I Had The Thi

if I had the things I wanted
there'd be a little pond
and it would have a little swan
and a waterfall
and it would have a big cliff wall
and on the top a castle tall
with armoured knights around to guard it all

if I had the things I wanted
I'd have the finest horse around
his feet would never touch the ground
cause he would fly
high above the sky
on wings so wide and strong
he'd never tire I'd ride him all day long

if I had the things I wanted
if I had the things I wanted
if I had the things I wanted

there'd be a little path
to a gazebo in the grass
with a little swing
and i would live there like a king
with a view so grand and fine
it would take my breathe away everytime
if I had the things I wanted

you'd be standing there
and you'd show me that you care
with a little kiss
and after that i'd never miss
another day by your side
and out across the skyline we would ride

if I had the things I wanted
if I had the things I wanted
if I had the things I wanted
if I had the things I wanted
.....if I had the things I wanted
