

# Ryan Tedder, If this is love

Ohh

Lately I've been hearing the strangest things  
People saying they've been seeing you around  
I hear them gossiping, no  
They tell me things that I just don't want to believe  
But I'm a little confused

A lot to lose

You see you don't call it love when you're being used  
So tell me what's the deal  
Is there something maybe you should just reveal to me  
Losing all my trust oh  
Don't even try to get it back because

If this is love

I've had enough  
Don't want to play no more  
Acting the part  
Breaking my heart  
Slap in the face

Oh

There goes my trust  
Left in the dust  
Throw it away  
All you need to know is that I've had enough

If this is love

Ohh

If this is love

Crazy little thing

Now I can see that there's a lesson here to be learned, oh  
I know that love is a beautiful thing  
But then again turn your back and you might get burned  
So take a minute and let's talk about the things I've heard  
Cause I'm a little confused

A lot to lose

You see I never would've guessed that I was being used  
You played me for the fool  
And now you're acting like you didn't know the rules, no  
Caught in your own treachery but  
Don't think you'll ever get the best of me

If this is love

I've had enough  
Don't want to play no more  
Acting the part  
Breaking my heart  
Slap in the face

Whoa oh

There goes my trust  
Left in the dust  
Throw it away  
All you need to know is that I've finally had enough

If this is love

Don't

Try to paint the picture  
Like you're innocent  
Because you won't  
Convince me

There's no fire

I've seen smoke

Enough to choke

A half a dozen guys

So what you've done

Is no surprise

If this is love

I've had enough

Don't want to play no more

Acting the part  
Breaking my heart  
Slap in the face  
There goes my trust  
Left in the dust  
Throw it away  
All you need to know is that I've finally had enough  
If this is love  
I've had enough  
Don't want to play no more  
Acting the part  
Breaking my heart  
Slap in the face  
Oh yeah  
There goes my trust  
Left in the dust  
Throw it away  
All you need to know is that I've had enough  
If this is love  
I've had enough
