

Rykers, Up To You

fed up... frustrated
can't understand the reason why
you shut yourself out
you're blind to everything inside
you drag yourself down
you flee from faith you need
betrayal as drugs tell you to
how can you believe this is true?
...slap in the face boy...
you don't find the answers
to your questions in a pipe
tuning out from all what's happening
makes you believe the hype
it's nice to laugh
but it's hard to be the joke
drowning deep in disillusion
watching your life go up in smoke
time's u... time's up to get a grip man
wise up... it's time to give a damn
depressive feeling... head down to low
nothing to give... nothing to show
down and out... no place to go
all this for nothing... all this for show
time's up... time's up to get a grip man
wise up... it's up to you to give a damn
