

S Club 7, Summertime filling

Slow down cos you move too fast
Close your eyes and let the day go past
Feeling the sun and the breeze in your hair
Let the waves take away your cares
I'm feeling good today
I just wanna listen what the flowers say
See if the cool wind carries my dreams
Watch you playing in the sunbeams
I got that summertime feeling
(Got me dreaming, summertime feeling)
I got that summertime feeling
(Got me dreaming, S Club feeling)
So we're taking a drive today
Friends in the back, everything's ok
You're my ice cream dream when we're fooling around
Don't want this heat to ever cool down
So ease your mind, set yourself free
Don't push what comes naturally
Making love in the afternoon
Sun's gonna shine on everything we do
I got that summertime feeling
(Got me dreaming, summertime feeling)
I got that summertime feeling
(Got me dreaming, S Club feeling)
Don't waste your time on problems
Step outside and let the summertime solve them
Sat indoors can send you crazy
Have you had any fun just lately?
Don't waste your time on problems
Step outside and let the summertime solve them
Sat indoors can send you crazy
Have you had any fun just lately?
I got that summertime feeling
(Got me dreaming, summertime feeling)
I got that summertime feeling
(Got me dreaming, S Club feeling)
I got that summertime feeling
(Got me dreaming, summertime feeling)
I got that summertime feeling
(Got me dreaming, S Club feeling)
