S Club, I Really Miss You

I called you today, just to hear you say you were not around When the message was through, though I wanted to I couldn't make a sound I wanna tell you the things I've seen I wanna take you to where I've been And I wish you were here with me Don't you know

Chorus: I really miss you Yes I do- yeah

I really miss you Ohhhhh yeah I do

I'm writing to say - Had a wonderful day,
Hangin' with my friends
But the memory dies as the sun leaves the skies - I'm alone again
I wanna tell you the weather is fine
When the night comes around you were on my mind
And I wish you were here with me
Don't you know

Chorus:

I really miss you Yes I do - yeah I really miss you Yes I do - I miss you I really miss you Ohhh yeah I do

I wanna tell you the things I've seen I wanna take you to where I've been And I wish you were here with me Oh don't you know

Chorus:

I really miss you Yes I do yeah I really miss you I miss you

I called you today just to here you say you were not around When the message was through, though I wanted to I couldn't make a sound I'm writing to say - Had a wonderful day, Hangin' with my friends
But the memory days as the sun reach the skies - I'm alone again
