

# S Club, These Are The Days

Sun is high  
It's the start of a long hot summer  
And for you and I  
Hanging out with each other

Since the early days  
Always been close when it mattered  
Look how much we changed  
Still so much to discover

And if some day we find  
We ever have to say goodbye  
We'll be running back these memories  
To relive time after time

Because these are the days of our lives  
That we'll always remember  
Here's to the craziest times  
That we've been through together  
These are the days (These are the days)  
These are the days we'll always remember (Remember)  
Oh oh  
Oh oh

Who can say  
Where the next thing is gonna find us  
So let's do it all right now  
With a picture to remind us

And if some day we find  
We ever have to say goodbye  
Tomorrow don't let me forget the way I feel tonight

Because these are the days of our lives  
That we'll always remember  
Here's to the craziest times  
That we've been through together  
These are the days (These are the day)  
These are the days  
We'll always remember (Remember)  
Oh oh  
Oh oh

And even though we know things will change  
We all be back together someday

Because these are the days of our lives (ohhh)  
That we'll always remember  
Here's to the craziest times  
That we've been through together

These are the days (These are the days)  
These are the days  
We'll always remember  
Oh oh  
Oh oh

(these are the days these are the days these are the days these are the days we'll)

Always remember, always remember, always remember the days of our lives  
Always remember, always remember, always remember...  
Always remember you
