

# S.E.X. APPEAL, Voodoo Queen

Last night you had a dream  
You were walking in your sleep  
You dreamt of a place down in Africa, in Africa  
Making dances .. round and round  
African drums play the voodoo sound  
The goddess of love cast a spell on you  
In Africa, Africa  
Im your voodoo queen  
I like to take control  
I live in a jungle of your soul  
Im your voodoo queen  
You better take advice  
I'll make you a prisoner of your own desire  
Voodoo queen  
You better watch out son  
I want to play with your fire  
I'll make you burn to dust  
You better watch it for my lust, my lust  
Im you voodoo queen  
Better take advice  
I'll make you a prisoner of your own desire  
Voodoo queen  
You better watch out son  
I want to play with your fire  
I'll make you burn to dust  
You better watch it for my lust, my lust  
Im your voodoo queen  
I like to take control  
I live in a jungle of your soul  
Im your voodoo queen  
You better take advice  
I'll make you a prisoner of your own desire  
Voodoo queen  
You better watch out son  
I want to play with your fire  
I'll make you burn to dust  
You better watch it for my lust, my lust  
In the darkness in the heat  
Better look before you leap  
Never go where (ancients) meets in Africa  
Better leave now better be wise  
You'd be a victim and my sacrifice  
Baby you will fall for my magical lies, in Africa, Africa  
I cast a spell on you  
Im your voodoo queen  
I like to take control  
I live in a jungle of your soul  
Im your voodoo queen  
You better take advice  
I'll make you a prisoner of your own desire  
Voodoo queen  
You better watch out son  
I want to play with your fire  
I'll make you burn to dust  
You better watch it for my lust, my lust
