

# S.T.U.N., Social Disease

she called the line at 5  
code generation spies  
can you get me out alive?  
i'm about to take a nose dive  
into a social disease  
who's weird is it you or me?

mommy lost her head in nine to five (daddy where'd you go now)  
her dad left when she had just arrived  
her hair, spiked and red dyed  
combat boots, so she can stand high

above a social disease  
who's weird is it you or me?
