

# S.T.U.N., Watch The Rebellion Grow

The time is now in sight  
When we will all unite  
You need us, we need you  
If we're gonna ever break through

When the outcome of power is discovered  
We'll have everywhere to go  
Until then the rebellion grows  
Watch the rebellion grow  
We won't give in  
Until the new visions begin

Let's get the boys and girls together

Judgment and all suppression  
Led to this aggression  
Tired of being beat down, we'll be in the streets  
With a new sound

When the outcome of power is discovered  
We'll have everywhere to go  
Until then the rebellion grows  
Watch the rebellion grow  
We won't give in  
Until the new visions begin

Let's get the boys and girls together
