

S.T.U.N., Watch The Rebellion Grow

The time is now in sight
When we will all unite
You need us, we need you
If we're gonna ever break through

When the outcome of power is discovered
We'll have everywhere to go
Until then the rebellion grows
Watch the rebellion grow
We won't give in
Until the new visions begin

Let's get the boys and girls together

Judgment and all suppression
Led to this aggression
Tired of being beat down, we'll be in the streets
With a new sound

When the outcome of power is discovered
We'll have everywhere to go
Until then the rebellion grows
Watch the rebellion grow
We won't give in
Until the new visions begin

Let's get the boys and girls together
