

# Sabaton, Metalizer

We live for the magic in the sound, distorted guitars are  
breaking ground  
The drum pounding faster than my heart, the vocals are  
screaming extreme art  
The passion for metal drives us forth, the best heavy metal  
comes from the north  
The powerful tunes, spectacular shows, the audience  
screams in ecstasy

Metal, Metal  
Back with a vengeance  
Metal, Metal  
All that I need is heavy metal  
Metal  
Screaming together  
Metal, Metal  
Metal is all that I need

White hell bends for leather we stand strong, a rocker can  
Party all night long  
The school couldn't teach us rock 'n' roll, the school  
Couldn't help us reach our goal  
We live for the magic in the sound, distorted guitars are  
breaking ground  
The powerful tunes, spectacular shows, the audience  
screams in ecstasy
