

Sadie, Grudge Of Sorrow

I'm sick in nightmare of the name to call reality.

Will you have a pain in the depths of a chest?

Reveal a wound hiding.

Spit out a lie hiding.

A grudge as it boils will repeat self-torture.

I want to escape from reality I approach, and to come.

Because nobody can save my heart anyway.

The sigh faded away for wind.

Tsukuriageta kireigoto ka?

Tsutawaranai kietehoshii dosuguroi ame ga furu

The sigh faded away for wind.

Ibashi ga naku mogaitemasu fukai kizu yo shitataru chi yo sonzai no imi

ha doko na no ka?

I cut darkness and live.

Itsuwari to minikusa no naka de daremo shinjirarenai kara

Azawarau boukanshatachi yo nani mo dekizu orokasa ni nageku koto darou

Where is my place to stay?

What do you expect for me?

Kanashimi no naka dareka no koe o machiwabitemasu shinitakumonai

ikitakumonai fuantei na genzai
