

Safri Duo, All The People In The Worl

All the people in the world
Every boy and every girl
Just imagine that we could...
It isn't hard to do.

All the people in the world
Every boy and every girl
Just imagine that we could
face up your brotherhood.

Give it up!

You've just got to give it up!

Let yourself just give it up!

You've just got to give it up, up, give up give up and

Give it up!

You've just got to give it up!

Let yourself just give it up!

You've just got to give it up, up, give up give up and

Jam it up!!

From the mountains to the sea
Through the valleys follow me
From down below to way up high

Baby we can touch the sky

All the people in the world

Every boy and every girl

Just imagine that we could

Face our brotherhood!!!!
