

Saga, Follow Me

Where were you
When I lost all my confidence?
I need you
I need you
To remind me of what life looks like,
in the eyes of a child of ten
Where were you?
Where were you when life made no sense?
I need you
I need you
Help me return to that place again
Follow me down the road
Take my hand and don't let go
Close your eyes, count to ten
Round and round and back again
Where were you?
Where were you when I wasn't strong?
I need you
I need you
To make me believe in the magic of innocence
Where were you
When I felt like I don't belong
I need you
I need you
Tell me that I can still dream without consequence
Follow me down the road
Take my hand and don't let go
Close your eyes, count to ten
Round and round and back again
Where were you?
Where were you when I lost control?
I need you
I need you
Remind me that sometimes I'm lonely but never alone
Where were you?
Where were you when I sold my soul
I need you
I need you
To hold me so tight, and never let go
Follow me down the road
Take my hand and don't let go
Close your eyes, count to ten
Round and round and back again
How was I to know
You'd be letting go
Follow me down the road
Take my hand and don't let go
Close your eyes, count to ten
Round and round and back again
