

Sage the Gemini, Now and Later (piosenka ze Sr

I can be your life saver
Treat me like a jaw breaker
You got 31 flavors, baby
You can get this now and later, now and later /2x
It's your choice

Stop playing, you acting like I don't this
Built an empire, you cookie, I'm delicious
Give me good head until you get a contusion
If you don't come back, I think I'mma lose it
I think I'mma lose it
If I ever had your number, I think I would use it
I'm feeling some way, you know I hate losing
If your heart was in a bank, I'd rob it just to prove it
Come on, you a mean diva
I'll grab your problems by the neck like I'm John Cena
You got a past, I didn't get to go to prom, either
So don't make it hard to believe that I need you

You're beautiful like spring time
Let me know you in the meantime
Hopefully, if things seem right
I'mma be needing your ring size

I can be your life saver
Treat me like a jaw breaker
You got 31 flavors, baby
You can get this now and later, now and later /2x
It's your choice

I love attitudes, but not the drama
You made it to my heart, [?]
Salam aleikoum you lead my Salama
You know my charm, you say it brings problems
Let me love you, put nothing above you
If we see your ex, I'll overly kiss and hug you
Make him jealous, now he's overzealous
Tryna act cool, I think he's over-selling
I don't mean no harm
I'm always there, Sage from State Farm
Whatever you do, have Miami in your heart
I pray to God he don't keep us apart

You're beautiful like spring time
Let me know you in the meantime
Hopefully, if things seem right
I'mma be needing your ring size

I can be your life saver
Treat me like a jaw breaker
You got 31 flavors, baby
You can get this now and later, now and later /2
It's your choice

Let me see what you came to do
You're a sugar rush to my sweet (tooth) /3x
