

Sal Solo, Music You

My life has music + you
But I know if I had to choose
Between you I'd have to
Go without the melody
All through the days of my youth
It seemed like music that pulled me through
But now I realise it was you
You had the remedy

Chorus:

And now I sing this song for you
Music + You
And everything I try to do
Only for you
It's not for me, but only you
Only for you
They may not understand
But maybe one day
They'll see the reason
Why I say what I say
My life had music + you
But now the music's dedicated to you
As with everything else I do
Harmony + melody
Chorus
