## Salad, Love Song

I'm just so beside myself With my endless love for you Love for you Can't respond to things I see or touch The way I normally do Normally do

I can't seem to get on without you

I'm so glad you're here All I need is a nice cup of tea And a comedy

A comedy Keeps me up there with the stars With my feet on the ground No one else around

When I walk beside you in the dark I know I'll love you For ever When I put my hand upon your shoulder Feel it moving Moving closer
