

Salem Al Fakir, It's Only You

Shouldn't tell you all I got inside but I just need to let it out
Let me say it if you don't mind
It's only you, I think about

Whoa whoa when I see you
Can't stop smiling just want to hold on tight
I know that must be love no doubt
That must be love no doubt

I can't sleep when all is spinnin round
I need to figure out how this can be so hard for me when it shouldn't be
Can't get you off my mind
It's only you I think about

If you ever would be mine, I will never ever let you down
If you ever would be mine
If you ever would be mine, I will never ever let you down
If you ever would be mine
If you ever would be mine, I will never ever let you down
If you ever would be mine
If you ever would be mine, I will never ever let you down
If you ever would be mine

I can't sleep when all is spinnin round
I need to figure out how this can be so hard for me when it shouldn't be
Can't get you off my mind
It's only you I think about
