

# Saliva, Bleed For Me

All I ever wanted was to be at your service  
But now I'm alone cause you were here and you're gone  
And all I ever wanted was to feel I had purpose  
But now that's all gone  
But if you could give me  
Just one love, just one life  
Just one chance to believe in my...  
Just one love, just one life  
You bleed for me and I didn't get to notice you  
Now I'm stuck on a line  
Bleed for me, I didn't get to be with you  
Now you're stuck in my mind  
All I ever wanted was to be want you needed  
Cause something so strong, it could never be wrong  
And all I can promise, is to say what I'm feeling  
We've made it so long  
But if you could give me  
Just one love, just one life  
Just one chance to believe in my...  
Just one love, just one life  
You bleed for me and I didn't get to notice you  
Now I'm stuck on a line  
Bleed for me, I didn't get to be with you  
Now you're stuck in my mind  
Just one love in my life  
You bleed for me and I didn't get to notice you  
Now I'm stuck on a line  
Bleed for me, I didn't get to be with you  
Now you're stuck in my mind  
Just one love in my life  
Just one love in my life
