

# Saliva, Cellophane

Time to find your mind  
I see you kickin your rhyme  
to be the boldest of a boring kind  
I see you  
they're coming to make you  
the rhyme you find will be the stupid of a boring kind  
I feel you comin around again  
I see you comin around again  
I think I wanna make you  
I think you wanna make me  
but I can see right through your heart  
and I can change the world  
and I can see right through your heart  
wrapped in cellophane  
Time to find your mind  
I see you bustin a rhyme  
to be the boldest of a boring kind  
I see you  
they're coming to make you the sign of the times  
that makes you the stupid of a boring kind  
I feel you comin around again  
I see you comin around again  
I think I wanna make you  
I think you wanna make me  
but I can see right through your heart  
and I can change the world  
and I can see right through your heart  
wrapped in cellophane  
See you all tonight  
say you're livin fine  
see you all tonight  
I see you  
say you're livin fine  
I see you  
seeing you all tonight  
I see you  
seeing you all tonight  
I see you  
seeing you all tonight  
I see you  
say you walk the line.
