

Saliva, Cellophane

Time to find your mind
I see you kickin your rhyme
to be the boldest of a boring kind
I see you
they're coming to make you
the rhyme you find will be the stupid of a boring kind
I feel you comin around again
I see you comin around again
I think I wanna make you
I think you wanna make me
but I can see right through your heart
and I can change the world
and I can see right through your heart
wrapped in cellophane
Time to find your mind
I see you bustin a rhyme
to be the boldest of a boring kind
I see you
they're coming to make you the sign of the times
that makes you the stupid of a boring kind
I feel you comin around again
I see you comin around again
I think I wanna make you
I think you wanna make me
but I can see right through your heart
and I can change the world
and I can see right through your heart
wrapped in cellophane
See you all tonight
say you're livin fine
see you all tonight
I see you
say you're livin fine
I see you
seeing you all tonight
I see you
seeing you all tonight
I see you
seeing you all tonight
I see you
say you walk the line.
