

Saliva, Don't Question My Heart

I heard you've been looking for me but, you looked for trouble.
You're gonna see that your words are dangerous. Your talk is cheap.
So now I'm standin' here. Now I'm standin' here.
You tell yourself you know what to do and you realize that I am comin' for you then you'll change yo
You see me standin' here! Now I'm standin' here!
Don't question my heart! Don't question the fire that burns inside!
Don't question my heart! Don't question a heart prepare to fight!
I got where I am because I didn't chase fame. And I seen you before and you're all the same.
Just one more mouth talkin' words insane. Just one more mistake, with different names!
Don't question my heart! Don't question the fire that burns inside!
Don't question my heart! Don't question a heart prepare to fight!
I heard you're lookin' for me... I'm standin' here. Still standin' here.
I'm standin' here! Still standin' here!
Don't question my heart! Don't question the fire that burns inside!
Don't question my heart! Don't question a heart prepare to fight!
