

# Saliva, Forever And A Day

The complicated ways of love  
Become all you're thinking of  
Sometimes leaving's not the way  
No matter what you say  
And lies are compromises  
You see it in each other's eyes and  
And suddenly you  
Realise you can't take it one more day  
You know I'd cross oceans to find you  
And you know I can't live without you  
And love is all that matters anyway  
Forever and a day  
The complicated ways of life  
Can cut you like a knife  
Sometimes anger's not the way  
And you regret the things you say  
And lies are compromises  
You see it in each other's eyes and  
And suddenly you  
Realise you can't take it one more day  
Cause you know I'd cross oceans to find you  
And you know I can't live without you  
And love is all that matters anyway  
Forever and a day  
A day  
Forever and a day  
Cause you know I'd cross oceans to find you  
And you know I can't live without you  
And love is all that matters anyway  
Forever and ever  
Cause you know I'd cross oceans to find you  
And you know I can't live without you  
And love is all that matters anyway  
Forever and a day  
Cause you know I'd cross oceans to find you  
And you know I can't live without you  
And love is all that matters anyway  
Forever and a day
