

Saliva, Forever And A Day

The complicated ways of love
Become all you're thinking of
Sometimes leaving's not the way
No matter what you say
And lies are compromises
You see it in each other's eyes and
And suddenly you
Realise you can't take it one more day
You know I'd cross oceans to find you
And you know I can't live without you
And love is all that matters anyway
Forever and a day
The complicated ways of life
Can cut you like a knife
Sometimes anger's not the way
And you regret the things you say
And lies are compromises
You see it in each other's eyes and
And suddenly you
Realise you can't take it one more day
Cause you know I'd cross oceans to find you
And you know I can't live without you
And love is all that matters anyway
Forever and a day
A day
Forever and a day
Cause you know I'd cross oceans to find you
And you know I can't live without you
And love is all that matters anyway
Forever and ever
Cause you know I'd cross oceans to find you
And you know I can't live without you
And love is all that matters anyway
Forever and a day
Cause you know I'd cross oceans to find you
And you know I can't live without you
And love is all that matters anyway
Forever and a day
