

Saliva, Salivia Always

I hear, a voice say "Don't be so blind";
It's telling me all these things, that you would probably hide
Am I, your one and only desire

Am I the reason you breathe, or am I the reason you cry
Always... always... always... always... always... always...

I just can't live without you

I love you, I hate you, I can't get around you

I breathe you, I taste you, I can't live without you

I just can't take anymore, this life of solitude

I guess that I'm out the door and now I'm done with you

Done with you, done with you, done with you, done with you, done with you

I feel, like you don't want me around

I guess I'll pack all my things, I guess I'll see you around

It's all, been bottled up until now

As I walk out your door, all I can hear is the sound

Always... always... always... always... always... always...

I just can't live without you

I love you, I hate you, I can't get around you

I breathe you, I taste you, I can't live without you

I just can't take anymore, this life of solitude

I guess that I'm out the door and now I'm done with you

I love you, I hate you, I can't live without you

I left my head around your heart

Why would you tear my world apart?

Always... always... always... always...

I see, the blood all over your hands

Does it make you feel, more like a man?

Was it all, just a part of your plan

The pistol's shaking in my hands and all I hear is the sound

I love you, I hate you, I can't live without you

I breathe you, I taste you, I can't live without you

I just can't take anymore, this life of solitude

I guess that I'm out the door and now I'm done with you

I love you, I hate you, I can't live without you

I love you, I hate you, I can't live without you

I just can't take anymore, this life of solitude

I pick myself off the floor and now I'm done with you

Always... always... always...
