

Saliva, Southern Girls

They got
Long legs, big lips
A baby face and orange knee-high hips
They got
Meanstreak ten feet wide
Halo above 'em and the devil inside
They can milk your cow
They can climb your tree
They're good at cooking if you know what I mean
All around the girls are extra fine
But not like down below the Mason Dixie Line
It's those southern girls
I've been around the world, world, world
There's nothing like southern girls
Beautiful southern girls
Alabama, Tennessee
In Oklahoma found the one for me
And up in
North Carolina, South Carolina
Florida, Virginia
There ain't nothin' finer
They treat you right and they aim to please
Their southern drawl put you down on your knees
All around the girls are extra fine
But not like down below the Mason Dixie Line
It's those southern girls
I've been around the world, world, world
There's nothing like southern girls
Beautiful southern girls
Yeah
Southern Girls
Oh Yeah
Southern Girls
Yeah
Southern Girls
Said Yeah Yeah Yeah Yeah
All around the girls are extra fine
But not like down below the Mason Dixie Line
Southern Girls
Southern Girls
It's those southern girls
I've been around the world, world, world
There's nothing like southern girls
Beautiful southern girls
