

Saliva, Spy Hunter Theme

You know I put it in drive
Cause it makes me feel alive
The situation's awry
And goin' faster
And now I'm hunting you down
And getting fear from the sound
And with my mayhem abound
I am your master!
Come on and let the hunt be the hunted
Come on and let the hunt be the hunted
Come on and let the hunt be the hunted
Come on and let the hunt be the hunted
Get in my way and I'll be blowin' up somethin'
Come on and let the hunt be the hunted
I'm trying to make it to the other side
And I'm dying to make my move
So get outta my way cause I'm coming for you!
I know that you will have to realize
The danger behind you
So get outta my way cause I'm coming for you!
A fun mystery I fight
From the day into the night
There is no place you can hide
I'm getting closer
My mission plainly aside
My enemies I will find
It's just a matter of time
Till this is over!
Come on and let the hunt be the hunted
Come on and let the hunt be the hunted
Come on and let the hunt be the hunted
Come on and let the hunt be the hunted
Get in my way and I'll be blowin' up somethin'
Come on and let the hunt be the hunted
I'm trying to make it to the other side
And I'm dying to make my move
So get outta my way cause I'm coming for you!
I know that you will have to realize
The danger behind you
So get outta my way cause I'm coming for you!
Come on and let the hunt be the hunted
Come on and let the hunt be the hunted
Come on and let the hunt be the hunted
Come on and let the hunt be the hunted
Get in my way and I'll be blowin' up somethin'
Come on and let the hunt be the hunted
I'm trying to make it to the other side
And I'm dying to make my move
So get outta my way cause I'm coming for you!
I know that you will have to realize
The danger behind you
So get outta my way cause I'm coming for you!
