

Saliva, Stay Gone

I found piece of mind
Feelin good again
I'm on the other side
Back among the livin
Ain't a cloud in the sky
All my tears have been cried
And I can finally say

Chorus

Baby baby stay
Stay right where you are
I like it this way
It's good for my heart
I haven't felt like this
In God knows how long
I know everything's gonna be OK
If you just stay gone
I still love you
And I will forever
We can't hide the truth
We know each other better
When we try to make it work
We both end up hurt
It ain't supposed to be that way

Chorus

When we try to make it work
We both end up hurt
Love ain't supposed to be that way

Chorus

I know everything's gonna be OK
If you just stay gone
