

Saliva, Tongue

All this time I believed your lie
raised your flag deep within your sight
I raise my flag to all you hide and drive your spike within me
within you
within me
What makes you think I wanna know
it makes your life worth living
what makes you think I wanna know
it makes your life worth living
all this time I believed your lie
and raised your god deep within your sight
I raise my glass to all you guys who drive your god from nothing
from nothing means nothing
What makes you think I wanna know
it makes your life worth living
what makes you think I wanna know
it makes your life worth living
Promises you made me
all this is apology
so sick of lies
don't wanna know
go and tell somebody else I say.
