

# Saliva, Tongue

All this time I believed your lie  
raised your flag deep within your sight  
I raise my flag to all you hide and drive your spike within me  
within you  
within me  
What makes you think I wanna know  
it makes your life worth living  
what makes you think I wanna know  
it makes your life worth living  
all this time I believed your lie  
and raised your god deep within your sight  
I raise my glass to all you guys who drive your god from nothing  
from nothing means nothing  
What makes you think I wanna know  
it makes your life worth living  
what makes you think I wanna know  
it makes your life worth living  
Promises you made me  
all this is apology  
so sick of lies  
don't wanna know  
go and tell somebody else I say.
