

# Salmonella Dub, For The Love Of It

Simplification of skank beat  
Free stylin' ourselves while we jam  
Stripping it back to the roots, version  
Nothing else treats me like you do

We move to the music  
Pushing and pulling ourselves  
Feeling the drum and bass  
That's why we do what we do

Unite the people we of the land  
Re-light the fires we burn again  
Stripping it back to the roots, version  
Nothing else takes me like you do

Version, we do it for the love of it
