

# Sam Smith, Life Support

I've been sleeping with the lights on  
Cause the darkness is surrounding you  
This is my world, this is my choice  
And you're the drug that gets me through

I've been waiting for an answer  
Because I build this bed for two  
I'm just waiting on your answer  
I built this bed for me and you

Can't you see that I am yours?  
So will you be my life support?  
You're my life support  
You're my life support

Sick of waiting up in darkness  
When the sky is always painted blue  
There's a method to my madness  
It's clear that you don't have a clue

I've been waiting for an answer  
Because I build this bed for two  
I'm just waiting on your answer  
I built this bed for me and you

Can't you see that I am yours?  
So will you be my life support?  
You're my life support  
You're my life support

Can't you see that I am yours?  
So will you be my life support?  
I've been sleeping with the lights on  
Cause the darkness is surrounding you
