# Samael, Era One

#### 1. Era One

#### 2. Universal Soul

Underneath the world built by reason
Lay the foundations of a different
Perception
Putting light on a brand new horizon
Remodeling our own
Life's conception
Opening views of another dimension
Revealing a home of
Outstanding proportions
Radiating from one's own reflection
Energy's
Nucleus height density concentration
Feeling incomplete before the meeting

## While the rest of me wants to gather

Sociability, sensibility Clear out charm of world illusions

Philanthropy to felicity, so why can't we live with one another Dissolved,
Diluted, restored and regrouped
Waiting for crystallization
Reunion of
Different principles
Leading to cohesion and different conclusions
Fundamental
And perennial

The law of movement intersideral

One small

Step, one giant step,

Independent and connected

Thought-

Omnipotence giving the access To your own soul, to other galaxies

Αt

Your own depth, reality Subject to hazard Susceptibility Emotionally, physically

Bound and tied

Understanding before standing Always digging your views a Little deeper Vision and dream accorded with one another

Giving an answer to all you wonder
Sun on your soul is significant to your
Own environment
See through the night
With an open mind
Catch up whit the light, your way you'll find
Feeling
Incomplete before the meeting
While the rest of me wants to gather

Sociability, sensibility Clear out charm of world illusions Philanthropy To felicity, so why can't we live with one another Dissolved, diluted, Restored and regrouped Waiting for crystallization Reunion of different Principles leading to cohesion and different conclusions

## 3. Sound Of Galaxies

The sound of galaxies playing the music of our lives
The notes we strike
Reasoned in time and space
Silent symphony waiting to be heard
Musical
Aura holding unseen worlds...

The sound of galaxies playing the music of our lives
The numbers we
Married, equations formulas
A mute language of the universe
Mathematical
Resonance the thought of matter...

#### 4. Beyond

## 5. Night Ride

No limits
Landing in the air
Traveling upstairs
Staying on the surface

Living on my own trace
Paint the night with fluo rays
Give the colours
Of our days
Feel the beat's rhythmic sound
Hear the music to which we're
Bound
The move of your mouth
Speak the language of my will
Rope formed
By the notes sealing the dance of our sex
Pictures flashing in our minds

There we search and here we find And we glow and we shine We feel good, We feel fine...

#### 6. Diamond Drops

Diamonds drops covering your breasts Diamonds drop covering your sex

Rain to river, sparkling matter Flowing, falling Rain to river, always Richer Holding, expanding Moving on, dancing 'round Carried by the Wind of change

In the cadence of romace bringing you another chance

Moving on, dancing 'round Carried by the wind of change

On and on life goes on, 'till somebody new will come...

#### 7. Home

## 8. Voyage

On the road, in the air
Across the sea, across the land
Going
Everywhere, meeting everyone
Around the globe, around your head
Across
Your soul, all through your brain
Meeting everyone, going everywhere...

Blessed are the travelers, those who belong nowhere... On the road again

Traveling further than my thoughts can go... On the road again

Searching,

Finding

Forgetting, remembering

How it goes...
Different cultures,

Different traditions

Different languages, different approaches

Of the World...

World within our eyes, confronted by the outside...

On the road

Again

Far - of destination, constant vacation...

On the road again

Searching, finding Forgetting, remembering How it goes... Introspective Trip Initiative voyages

All along...

On the road, in the air

Across the

Sea, across the land

Going everywhere, meeting everyone

Around the globe, Around your head

Across your soul, all through your brain

Meeting

Everyone, going everywhere...

## 9. Above As Below

Low and high Slow motion We reason at the sound of a big band traveling In time Overwhelmed by all we've seen Wealthy, healthy Ready... Above
As below
Surrounding a view
Above as below
The world is unreal...
Sweet
Violence
Rough tenderness
An ode to movement
Endless, uncontrolled

Caresses Overwhelmed by all we've seen Overwhelmed by all we've been

Wealthy, healthy Ready... Above as below Surrounding a view Above as Below The world is unreal...
